RE: RFP Community Relations Plan and Responsiveness Summary, Draft  
Version, September 30, 1991

Dear Mr. Hestmark,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced documents prepared by DOE and its prime operating contractor, EG&G. The additions and modifications that have been incorporated into the documents as a response to our comments are adequate and the Division recommends that both the RFP Community Relations Plan and the Community Relations Plan Responsiveness Summary be approved.

The Division believes that the additional maps and the additions to the site description, plant history, community profile, and history of community involvement make the Final Community Relations Plan much more informative and useful for interested citizens attempting to understand the complex issues of the Rocky Flats Plant. In addition, the community relations program is also strengthened by both the toll-free information telephone line and the clarification of methods for dissemination of fact sheets and similar documents.

We do suggest the following minor changes:

1. Please specify when the Administrative Record will be available to the public.
2. Please make these changes in Appendix A to the Colorado Department of Health personnel list:
  - a. change Debbie Mauer's title to Hazardous Waste Liaison
  - b. add the Rocky Flats team members
